

## **BİZİM TOPTAN SATIŞ MAĞAZALARI A.Ş. ENVIRONMENTAL POLICY**

- We act in accordance with all environmental laws and obligations while conducting our operations; we develop practices that exceed the legal requirements and take necessary steps to address climate change.
- We adopt an environmental management understanding based on continual development.
- We support the performance of the Environmental Management System with technological improvements.
- We use energy efficiently to minimize our greenhouse gas emissions and air emissions.
- We manage our water use efficiently and constantly work to improve it.
- We work to minimize the level of our waste water and improve the quality of our water emissions.
- We reduce our resulting wastes at the source; we reuse, recycle, and dispose in accordance with applicable legislation, if recycling is not possible.
- We emphasize efficiency and sustainability in our supply processes.
- We work to present products that are environmentally friendly and have minimum impact on the environment.
- We continuously improve on our environmental performance by measuring and reporting results with objectives and targets.
- We ensure that our environmental policy is monitored and audited within the framework of the Environmental Management System, Supply Chain, Quality Control and Internal Audit processes, as well as legal requirements.
- We encourage our staff and all our stakeholders in responsible environmental management undertaking.
- We raise environmental awareness with employee trainings.
- We inform our suppliers and support them in adopting efficient environmental management practices.
- We take into consideration a supplier's policies regarding the environment during supplier approval processes and audits.
- We receive the support and contributions of our employees, suppliers, customers, Board of Directors members and all our business partners to reach our goals.
- We meet with the Sustainability Committee, environmental management units and stakeholders at least once per year and review environmental policy and practices.
- We update our environmental performance annually and share it with the public.
